## ROTOR PUMPS

	Model No.	Maximum operating pressure* <sup>1</sup> MPa {kgf/cm <sup>2</sup> }	Theoretical discharge rate cm <sup>3</sup> /rev										Page			
			1	5	10	50	100									
RP series	RP08	14 {140}	8.0													C-5
	RP15	14 {140} 21 {210}	14.8													
	RP23		24.4													
	RP38		37.7													

Note: \*<sup>1</sup> The maximum operating pressure varies depending on the control method and motor output. Refer to Page C-7 for details.
